

# LOGOS

## THE NYCROPHONE LOGO

The hallmarks of the NYCROPHONE logo are the bold shapes and 2 tones, black and white. The logo is topped off with a fully detailed microphone with full gray shading.

This is the main logo used for most uses but variations can be created as needed.

On this page are examples of the three main types of logos. On the futher pages are full resolution copies that can be copied from the document. (Not available on the iPad.)

## NYCROPHONE IN PRINT

The logo is simplified in print when full gray isn't available.

## NYCROPHONE ARTISTS SERIES

Artists have been inspired or hired to design their own takes on the NYCROPHONE logo. This series includes designs made in house for different purposes such as for Gay Pride or specific venues. These will be filled out as we develop more.
